

APPLEBY COLLEGE MIDDLE SCHOOL

ADVANTAGE

“I never teach my pupils, I only attempt to provide the conditions in which they can learn.” – Albert Einstein

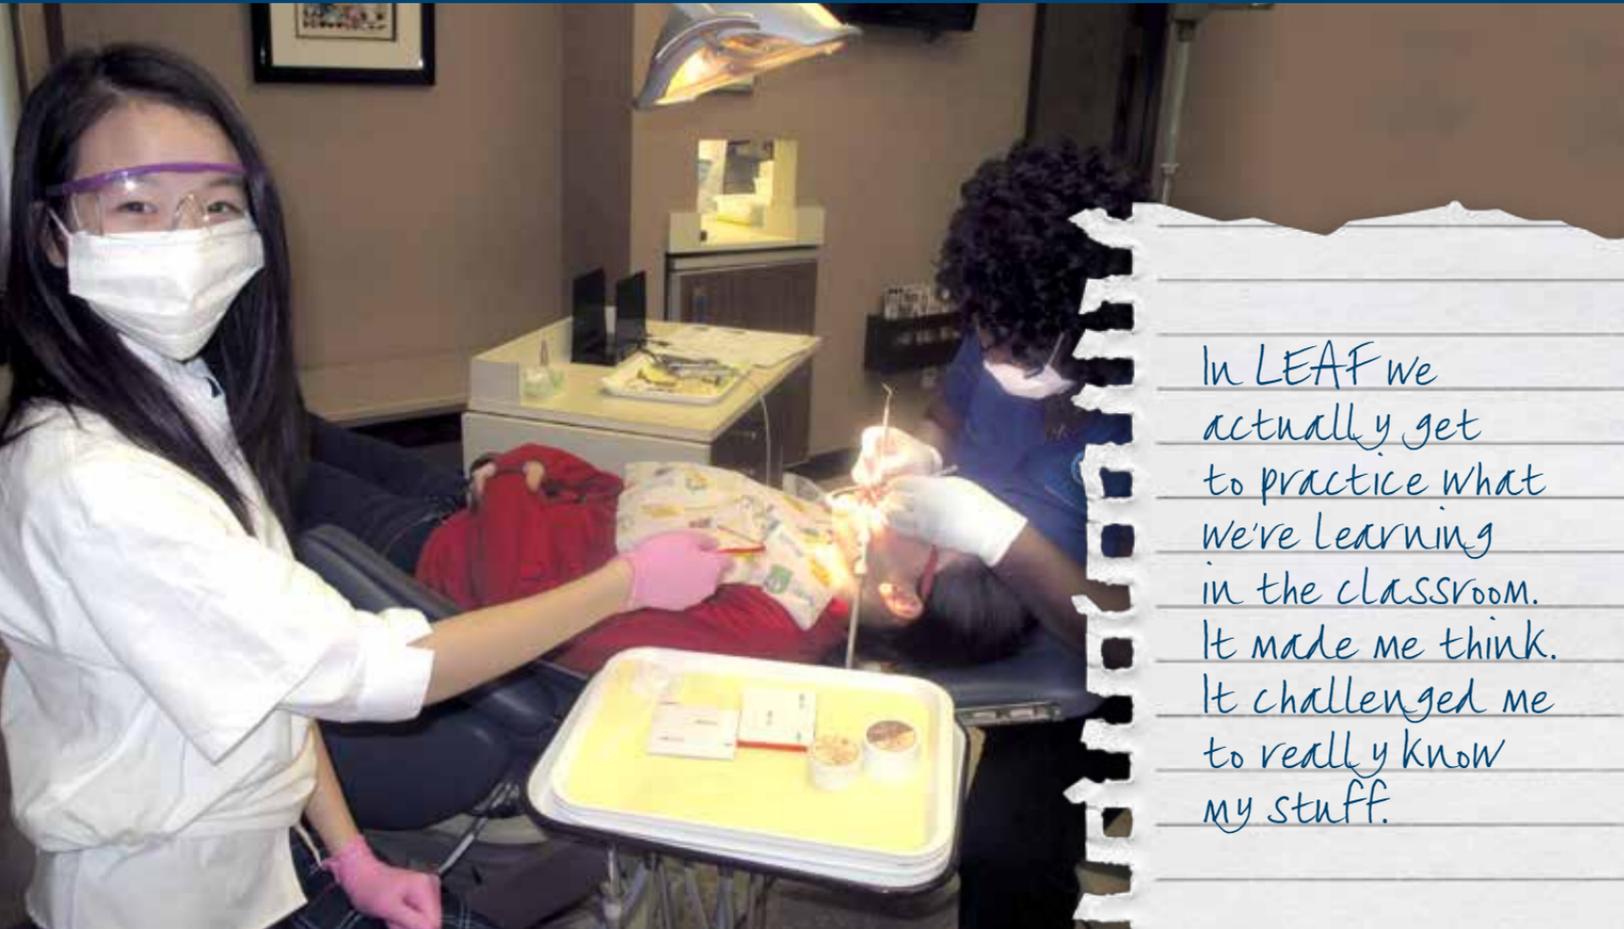

Appleby College's Middle School provides the foundation for future success.

Appleby's grade 7 and 8 program offers small class sizes, experienced Teachers and an extensive guidance program to help provide a supportive and nurturing environment that promotes exploration, creativity and personal development.

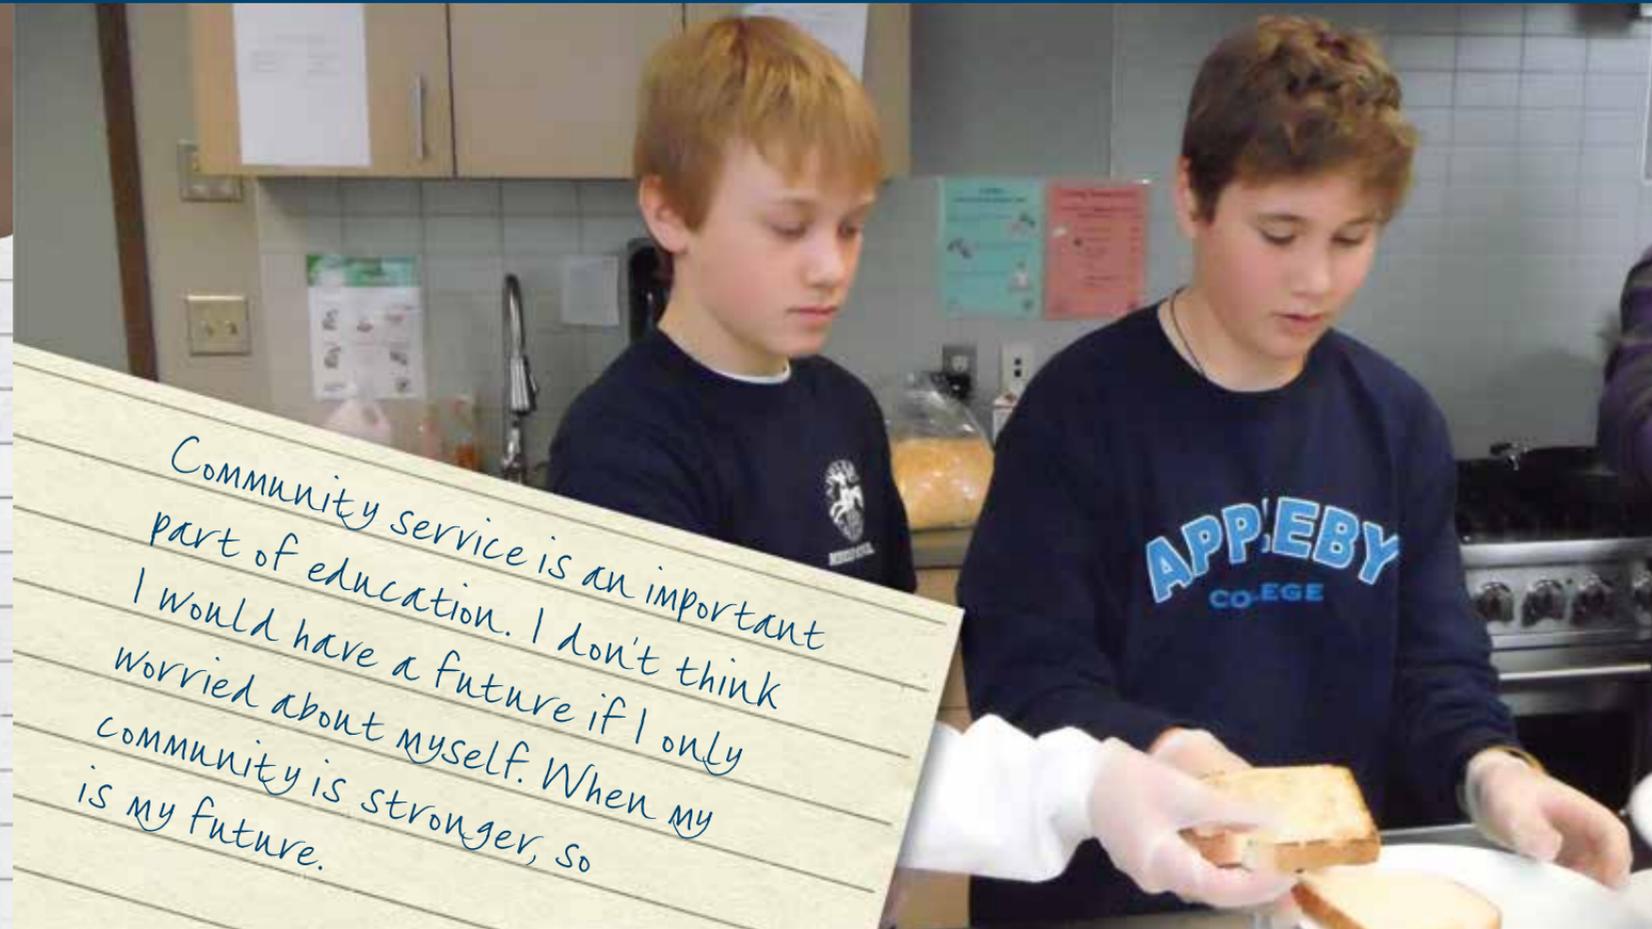

The thought of a new school was scary at first, but when everyone is new it made it a lot easier to make friends.

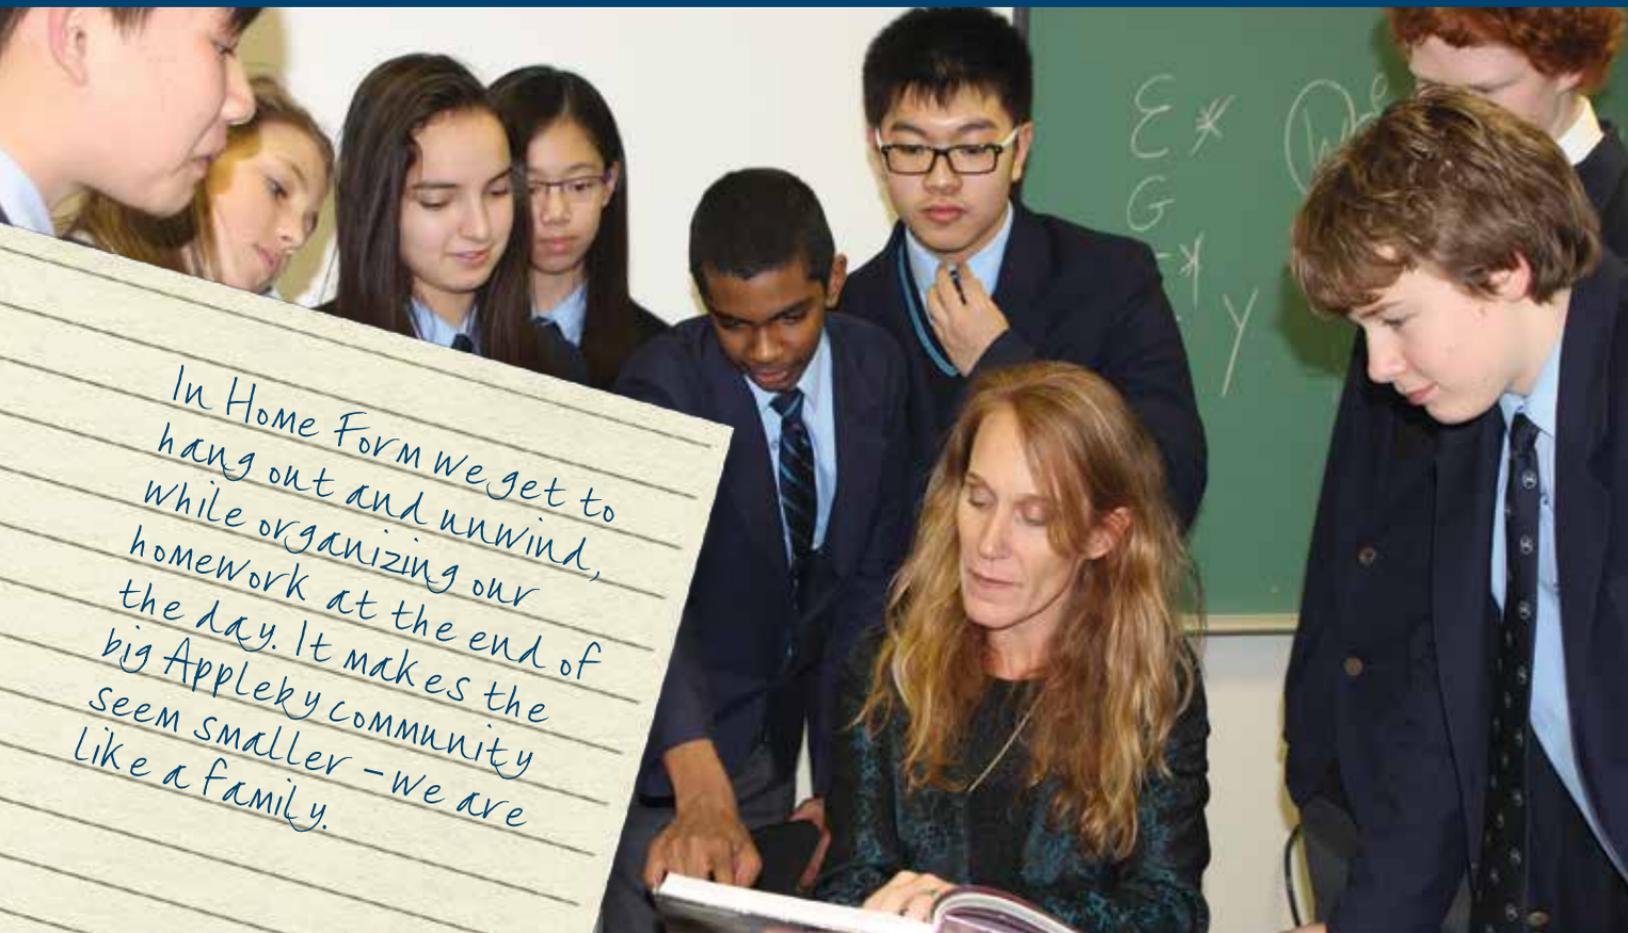

In LEAF we actually get to practice what we're learning in the classroom. It made me think. It challenged me to really know my stuff.

Community service is an important part of education. I don't think I would have a future if I only worried about myself. When my community is stronger, so is my future.

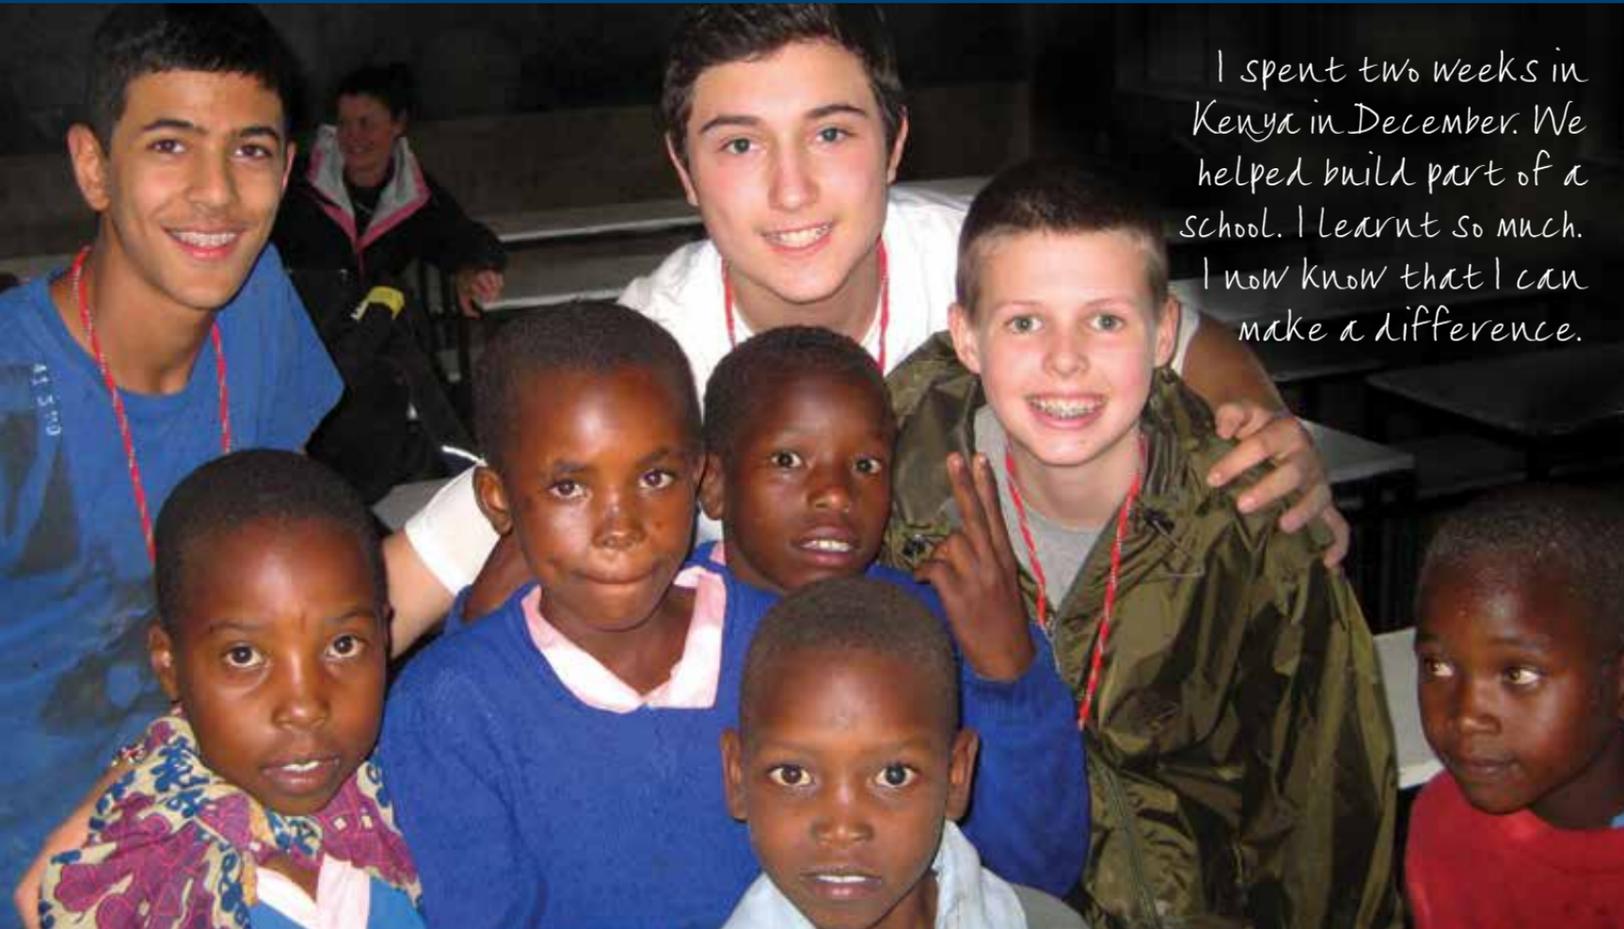

In Home Form we get to hang out and unwind, while organizing our homework at the end of the day. It makes the big Appleby community seem smaller - we are like a family.

I like the concept of homework blocks as it lets me focus on my homework in certain courses each day to help keep my workload manageable.

I spent two weeks in Kenya in December. We helped build part of a school. I learnt so much. I now know that I can make a difference.

At Appleby, I'm learning what it means to be a leader in the school, with my friends and in the community.

Appleby has given our daughter the opportunity to grow. Through the support of her teachers and the school's guidance department she has excelled. Starting in grade 7 was definitely the right choice for her.

When you begin Middle School, everyone is new, which makes it easy to develop friendships. You're also provided with a lot of support from your teachers, including learning how to use your laptop for homework to being encouraged to participate in various service opportunities. These things really helped me prepare for high school and make me confident to take on leadership roles at school.

Appleby College Financial Assistance

At Appleby College, we believe students deserve every opportunity to pursue an education that excites and challenges them, an education that offers them the chance to discover and embrace their passions. Appleby's commitment to financial assistance is designed to ensure that students can pursue such an outstanding education. An Appleby education requires a significant commitment and we believe financial need should never prevent a student from reaching their full potential. This is why we have expanded our financial assistance program to include both grade 7 and 8.
