ADVANCED PLACEMENT®

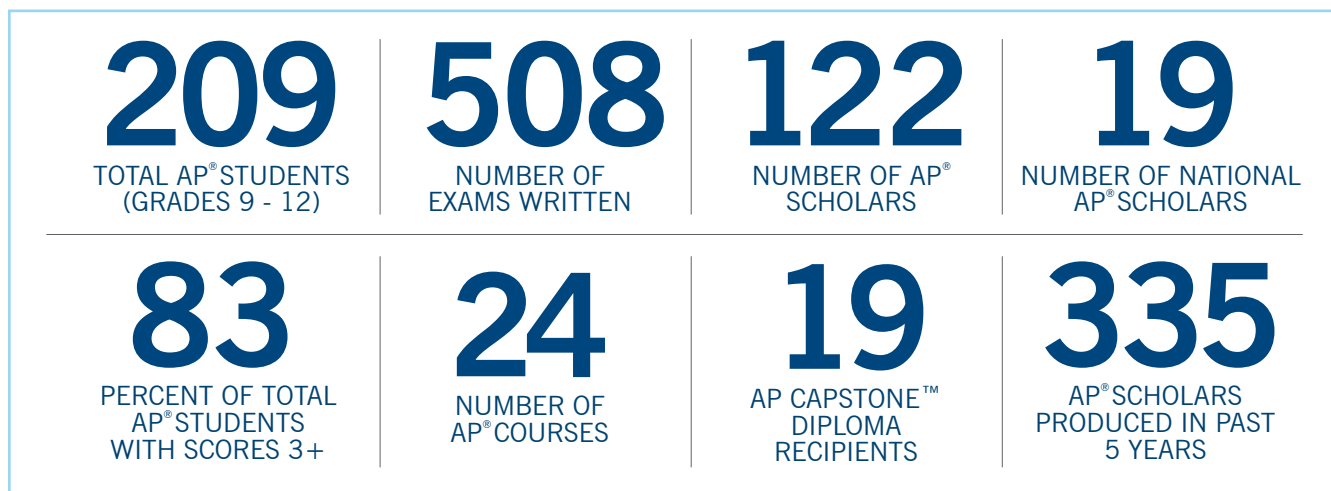

Given our great attention to AP® and our performance on exams, The College Board® has recognized and accepted Appleby College as one of a select group of schools in Canada to deliver the AP Capstone™ Diploma. Students engaged in this 2-year programme will complete a minimum of 4 AP® exams along with a Seminar course and a Research component, the latter two elements modeling the critical thinking skills necessary and the scholarly research-based investigations conducted in university.*

In an effort to continually improve the academic strength of our school and prepare students for post-secondary education, we look to innovative approaches in our delivery of AP® courses. The programme is strengthened with the Pre-AP® course work completed in the Junior years in which students are introduced to the skills, concepts, language, and activities necessary for Senior course work, AP® classes and exams, and university performance. All students enrolled in AP® classes attain the Ontario Secondary School credit associated with that particular course but, over and above that, receive significant enrichment in order to prepare for AP® success. Students demonstrating knowledge and skill in AP® subjects where no equivalent Appleby class is offered, receive additional support from faculty in order to supplement learning and prepare for the AP® exams.

In their Junior year, students have access to the following AP courses: English (either AP Language or AP Seminar), AP US History, AP Human Geography, AP Physics 1 and AP Computer Sciences. If a student has accelerated their learning in math and the languages they have access to AP Calculus (AB), AP Statistics, AP Mandarin or AP French. Due to course blocking, not all AP courses can be scheduled in their Junior year.

**53 students are currently enrolled in this programme with 26 prepared to achieve the diploma in July 2019.*
